**WELCOME**

Your physician has referred you here to aid in your medical program and in his or her assessment of your needs. On your first visit you will be thoroughly evaluated. On the basis of that evaluation and your physician's recommendations, an appropriate treatment will be proposed. The therapist will explain your program thoroughly and will work with you to establish some functional goals that should be realized with therapy.

A copy of the evaluation and the proposed treatment plan will be sent to your physician. As your particular condition changes, so may the treatment you receive. Close communication between your therapist and your physician regarding these changes will be maintained.

Your rehabilitation is important to us. In order to maximize your time here, and in consideration of other patients, we request that children not be brought to therapy sessions. However, if it is absolutely necessary that your child come to therapy with you, we ask that you keep your child close to you at all times. Also, for their safety, children are not allowed to use any of the equipment.

**PATIENT FINANCIAL AGREEMENT FOR MOTOR VEHICLE  
ACCIDENTS**

Please read and initial each.

You, the patient, are responsible for the bill for all services rendered you by the PROVIDER. PROVIDER may bill certain insurance companies strictly as a courtesy to you. At the discretion of the PROVIDER, we will bill some health insurance agencies, auto insurance agencies, attorney/law firms, worker's compensation claims and Medicare, provided you are eligible for the requested medical services. We accept assignment only from the Department of Labor and Industries, Medicare, and certain HMO/PPO's as payment in full, subject to payment of your co-pays and deductibles, provided your respective insurance company/prepaid health plan administrator audits and pays your claims properly and correctly. If this does not occur, or your claim is rejected for any reason, including your failure or inability to bill your insurance provider, you will be responsible for the differences of any amounts due. Any deductibles not met, differences in coverage, applicable co-insurance payment, as well as services not covered under your insurance contract, must be paid, in full, at the time of each office visit. We ask that you check with your insurance to verify your coverage for therapy. By billing these insurance companies or waiting for settlement of your accident case, we are extending credit and reserve the right to inquire about credit and contact all three credit recording agencies to determine whether credit should be extended. Patients may ask to inspect our fee list. Patients who have no insurance coverage or whose insurance we do not bill directly will be required to pay for all medical services at the time of each visit.

The patient/guarantor also agrees that they are responsible for all medical services provided on their behalf whether or not any first party payer, third party payer, arbitration panel, or court of law determines that the medical treatment was not "reasonable" or "medically necessary", or should not be paid for any reason.

**PLEASE CONTINUE TO THE OTHER SIDE.**

Should you change attorney for any reason, your outstanding balance will be immediately due in full, unless you retain a new attorney who sends/signs a PROVIDER's Disbursement Agreement, within seven days. If your claim has not settled within 12 months of initiating care with the PROVIDER, the balance may be considered due at any time thereafter at the PROVIDER's discretion. Failure to obtain a legal settlement sufficient to cover the costs of medical care does not negate the patient's responsibility to pay PROVIDER fees. When a claim is settled, dismissed, or discharges against a third party, all unpaid fees, to include interest, are considered the patients responsibility and are immediately due and payable.

The patient agrees that any deposition office conferences, telephone consultations, or other contact by a representative of PROVIDER with any attorney or insurance company acting or not acting on behalf of the patient will be charged the customary and usual fee of the PROVIDER, in addition to the expert witness fee charged by the PROVIDER.

If your health insurance company has not paid within 45 days after the date services were rendered, our office will notify the patient of the amount due. It will then become the sole responsibility of the patient to deal with their insurance company when there is a question or nonpayment for services rendered.
